

## RE: FFY2011 Annual Program Report Leah Medley to: Hopkins, Stephen [DNR]

08/31/2012 12:53 PM

Thanks for your edits Steve. The Annual Progress Report is accepted as is. FYI, sorry for the confusion but as a team at the Kaizen we decided on the term Progress rather than Program based on the wording in the CWA Statute. I will try to be consistent with calling it the Annual PROGRESS Report from now on.

The 2012 Annual Progress Report should try to continue to improve the reporting of monitoring data related to water quality improvement or other trends rather than just a reference to the entire 305(b) report so we can show improvement for that question in the SPD checklist. Maybe even just referencing the GAPRs or final reports for the monitoring projects would work if they are detailed? We can talk about it as you are preparing the 2012 report in the next few months for the December 31st due date. I believe ALL the Region 7 states are working to improve reporting on this so I will find out what they are doing too.

## Thanks!

## Leah,

I'm submitting a revised final FFY2011 annual report that incorporates new language on pages 11 and 12 to address your final two comments, pertaining to water quality improvement information and watershed project summary information.

Please let me know if you need more information.

Thank you.

Steve, thanks for your revisions. Attached is the document with two comments that I am not sure were addressed as we talked about on the phone.

Thanks.
